

Scarbo project - OW2

[Licensing](#)

Scarbo modeler

Scarbo modeler is mainly built on Eclipse code. Then, it was decided to distribute it under the [Eclipse Public Licence](#).

Please note that it also includes some binaries distributed under [BSD licence](#), such as [EasyWSDL](#). Scarbo runtime

Scarbo Runtime is a "merge" of 2 main components:

- [Bonita 4](#) workflow engine
- [Frascati](#) SCA container

Both components are distributed under LGPL licence. Then, the Scarbo runtime is also distributed under [LGPL.v3](#) Scarbo demonstrators

Since demonstrators are built on Scarbo runtime, they are also distributed under [LGPL v3](#).
